Serverbytz, Inc. Press Release

Chicago, Illinois, April 1, 2008 – Serverbytz, Inc. announced today it will be providing the Chicago land area with corporate e-mail, SharePoint portals, professional websites, web hosting, computer support, software, and design services. Serverbytz, Inc. launches its hosted services on top of a proven, fortune 500 grade infrastructure. Along with its array of general business internet services, Serverbytz, Inc. also provides custom dental patient management services: Docwoc.com. Docwoc.com provides patient medical record storage, healthcare networking, healthcare practice marketing, management, and communications.

“This is truly a company with visions of the future blended with experience from the past. Built on strong engineering and scientific principles of computer science, Serverbytz, Inc. is showing small businesses and health practices the advantages of online business processes and Web 2.0,” said Matthew Ruggio, CIO of Serverbytz, Inc.

Serverbytz, Inc. allows businesses and healthcare practices to take full advantage of state-of-the-art e-mail, file sharing, e-commerce tools, and more. These services were once not feasible due to the high investment needed in software, hardware, and maintenance.

“Imagine for a minute... you have access to the collective consciousness of your entire business and industry. These services were born out of necessity and are going to dramatically evolve business and healthcare in ways that were never before seen possible,” said David A. Ruggio D.D.S, CEO of Serverbytz, Inc.
